

Life Drawing, Life Learning - A Practice

Lina Ivanova & Victoria Louise Doyle

Artist-Teacher in Adult Community Learning Conference

If you have done life drawing before, please feel free to write in the chat how that experience was for you, the first time you did it, the following times, how did your experience change over time.

If you've not attended life drawing, please do share this in the chat. Consider why you've not done it, and reflect on how you imagine the experience would be.

Deconstructing the experience of life drawing

Impact of Life Drawing on the process of learning, teaching, practicing

The opportunity to

- Feel vulnerable
- Take ownership of your own learning
- Be accountable
- Focus
- Engage
- Let go
- Learn from yourself
- Learn from others
- Practice collectively, together but in our own way
- Connect with each other
